

- **Dismantles completely**
- **Replacement cutter tube available in three diameters 3,5, 4.2 and 5.5mm**
- **High suction, based on a optimal suction chanel**
- **Tip rotates 360° in 45° steps**
- **Ideal in the meniscus front area**

- High quality hand held instruments
- Integrated overload release mechanism to minimize tip breakage
- Ergonomic design
- Precise cut
- Lifetime material warranty

- Closed Shaft with Teflon
- Various designs available
- High performance

Cat. No. 731230  
B = 3,4 mm  
C = 3,2 mm

Cat. No. 731231  
B = 3,4 mm  
C = 3,2 mm

Cat. No. 731232  
B = 3,4 mm  
C = 3,2 mm

Cat. No. 731233  
B = 3,4 mm  
C = 3,2 mm

Cat. No. 731220  
B = 3,4 mm  
C = 2,0 mm

Cat. No. 731221  
B = 3,4 mm  
C = 2,0 mm

Cat. No. 731224  
B = 3,4 mm  
C = 2,0 mm

Cat. No. 731226  
B = 3,4 mm  
C = 2,0 mm

- 3.4 mm diameter closed shaft
- Smooth tip design
- 8° up Tip for optimal positioning

B = 3,4 mm  
C = 2,0 mm

Cat. No. 731228 90° right  
Cat. No. 731229 90° left

Cat. No. 731250  
B = 3,4 mm  
C = 3,4 mm

- **High quality graspers**
- **Integrated overload release mechanism to minimize tip breakage**
- **Internal fixation, designed for one hand**
- **3.4 mm diameter closed shaft**
- **Perfect grip**

Cat. No. 731251  
B = 3,4 mm  
C = 3,4 mm

Cat. No. 731100  
B = 2,75 mm  
C = 0,8 mm

Cat. No. 731110  
B = 2,75 mm  
C = 1,4 mm

Cat. No. 731102  
B = 2,75 mm  
C = 0,8 mm

Cat. No. 731114  
B = 2,75 mm  
C = 1,4 mm

Cat. No. 731130  
B = 2,75 mm  
C = 3,5 mm

Cat. No. 731131  
B = 2,75 mm  
C = 3,5 mm

Cat. No. 731103  
B = 2,75 mm  
C = 0,8 mm

Cat. No. 731115  
B = 2,75 mm  
C = 1,4 mm

- **2.75 mm diameter closed shaft**
- **Smooth tip design**
- **8° up Tip for optimal positioning**

- High quality hand held instruments
- Integrated overload release mechanism to minimize tip breakage
- Ergonomic design
- Precise cut
- Lifetime material warranty

- Open Shaft-System with Teflon
- Various designs available
- High performance
